Capstone project Title: Hospital Management System

Group Members: Pooja Patil   [339CS17028]

Pooja Mali   [339CS20016]

Sneha Mali   [339CS20028]

Swayam Patil   [339CS20032]

Risk or Issue List:-

Date	Risk or Issue	Description	Resolution	Status
	Dividing the proper cost estimation	We have discussed about solving risk of cost estimation of capstone project.	We have divided the cost according to our daily requirements like labour cost, cost of material and net profit.	Completed
	Work breakdown structure	We have divided the modules into sub modules and assign activities and tasks.	We have identified the modules and breaks the larger modules into smaller modules and assign the activities and task each member.	Completed
	Time line schedule	We have discussed about assigning days & time for each module and assign the work to group members.	We have performed all task here, like collecting requirements, designing database connection & testing.	Completed
	Cost breakdown structure	We have discussed about estimation of labour cost of work of material, overhead cost, and final check.	We estimated the cost as per the sub modules with day and hours wise.	Completed

Task in progress or completed:-

Task Name	Description	Team Member Responsible	Percentage Complete
Scope document	We have discussed about scope document of the project	Sneha Mali	90%
Work Breakdown structure	We have discussed about work breakdown structure of the project.	Swayam Patil	85%
Timeline schedule	We have discussed about Timeline schedule of the project.	Pooja Mali	90%
Cost	We have discussed about cost of the project.	Pooja Patil	94%

Upcoming Tasks:-

Task Name	Description	Team Member Responsible
User must design properly	We have to design the book appointment page using HTML,CSS and bootstrap as per user requirement.	Swayam Patil
Entered details must validate Properly.	After completing the design we have to validate the form using JavaScript.	Swayam Patil
Entered detail must store in database	After completing validation We have to connect the form to database using php and MYSQL database.	Swayam Patil
User must design properly	We have to design the book appointment page using HTML,CSS and bootstrap as per user requirement	Swayam Patil

Risk or Issue List:-

Date	Risk or Issue	Description	Resolution	Status
	Solving error in code.	We got error in designing of book appointment form.	We have solved the error by correct code.	Completed
	Database connection	In this we got error in defining query.	We have added proper syntax of query for proper connection of database.	Completed
	Testing	While testing we got error in validation	We start to solving the risk beginning of the code for validate the form..	Completed

Task in progress or completed:-

Task Name	Description	Team Member Responsible	Percentage Complete
User must design properly	We have to design the book appointment page using HTML,CSS and bootstrap as per user requirement.	Swayam Patil	94%
Entered details must validate Properly.	After completing the design we have to validate the form using JavaScript.	Swayam Patil	97%
Entered detail must store in database	After completing validation We have to connect the form to database using php and MYSQL database.	Swayam Patil	95%
User must design properly	We have to design the book appointment page using HTML,CSS and bootstrap as per user requirement	Swayam Patil	94%

Upcoming Tasks:-

Task Name	Description	Team Member Responsible	Percentage Complete
Book appointment page must design properly.	We have to design the book appointment page using HTML,CSS and bootstrap as per user requirement.	Swayam Patil	94%
Reception login must validate properly.	After completing the design we have to validate the form using JavaScript.	Pooja Mali	97%
Reception login must store in database.	After completing validation we have to connect the form to database using php and MYSQL database.	Pooja Mali	95%
